## **Make In India is promoted by visionary leaders**

**CHANDIGARH:** CII-Avantha Centre of Excellence for Competitiveness in addition to providing specialised services for manufacturing excellence of Indian Industry has taken a new initiative to provide a platform for industry to meet and interact with world renowned professionals and experts on manufacturing and break through strategies.

In first of the series a session on Remedies & Future Directions for Indian Manufacturing with Padma Shri awardee, Professor Shoji Shiba—a world renowned transformational manufacturing Guru was held at CII, Chandigarh on Thursday. Industry members from across the region attended the session with Prof Shiba organised by CII-Avantha Centre of Excellence for Competitiveness. Prof Shoji Shiba, gave five key mantras for sustainable development of Indian industry and its manufacturing sector to the next level. Acting on the mandate from the then President Abdul Kalam, Prof. Shiba envisioned the scaling up of Indian Industry across India.
